THE
NEW
YORK
LIBRARY

Subject index

Volume 36 (1994)

- Abuse liability;** Meta-analysis; Morphine; Dose-effect; Postaddict humans 36, 147
- Abuse liability;** Rhesus monkey; Self-administration; Drug discrimination 36, 187
- Acquired immunodeficiency syndrome;** Treatment entry; Injecting drug use; Substance abuse; Human immunodeficiency virus 36, 129
- AIDS;** HIV; Sexual behavior; Injecting drug users 36, 33
- Albendazole;** Ethanol; Gastric absorption; Mebendazole 36, 49
- Alcohol;** Aspirin; Neural tube defects; Genetic susceptibility; Mouse fetuses; Defects of axial skeleton 36, 175
- Alcohol;** Ethanol; Cocaine; Pharmacokinetic interactions; Pigs 36, 9
- Alcohol;** Primary care; HMO, general population 36, 167
- Alcohol and drug abuse;** Configural frequency analysis; Cross-system consistency; Diagnostic concordance; DSM-III; DSM-IV; ICD-10 36, 193
- Alcohol dependence;** DSM-IV revision; Substance dependence disorders; Tolerance and withdrawal; Cocaine dependence; Opiate dependence 36, 15
- Alcohol problems;** Women; Survival techniques; Gender 36, 57
- Alcohol teratology;** Fetal alcohol effects; Fetal alcohol syndrome; Longitudinal research; Learning problems; Partial least squares 36, 89
- Alcohol use;** Emergency room; Case-control study; Home injuries; Falls; Violence; Traffic accidents 36, 1
- Amphetamine;** Proopiomelanocortin mRNA; Pituitary; Rat 36, 123
- Anabolic steroid;** Injecting drug users; Substance misuse complications; Hepatotoxicity; Needle and syringe exchange 36, 153
- Analgesia;** Associative; Context-specific; Morphine Naltrexone; Tolerance 36, 65
- Aspirin;** Alcohol; Neural tube defects; Genetic susceptibility; Mouse fetuses; Defects of axial skeleton 36, 175
- Associative;** Analgesia; Context-specific; Morphine Naltrexone; Tolerance 36, 65
- Availability;** Substance abuse; Survey; Nurse; Specialty 36, 215
- Buprenorphine;** Methadone detoxification; Clonidine; Lefetamine 36, 139
- Buprenorphine;** Opioid; Detoxification; Clonidine; Controlled trial 36, 115
- Case-control study;** Alcohol use; Emergency room; Home injuries; Falls; Violence; Traffic accidents 36, 1
- Child;** Cocaine; Pregnancy; Infant 36, 101
- Clonidine;** Methadone detoxification; Lefetamine; Buprenorphine 36, 139
- Clonidine;** Opioid; Detoxification; Buprenorphine; Controlled trial 36, 115
- Cocaine;** Alcohol; Ethanol; Pharmacokinetic interactions; Pigs 36, 9
- Cocaine;** HIV; Intravenous drug use; Methadone maintenance treatment; Ethnicity 36, 109
- Cocaine;** Pregnancy; Infant; Child 36, 101
- Cocaine dependence;** DSM-IV revision; Substance dependence disorders; Tolerance and withdrawal; Alcohol dependence; Opiate dependence 36, 15
- Cocaine self-administration;** Flupenthixol decanoate; Haloperidol decanoate; Neuroleptics; Progressive ratio; Fixed ratio; Schedules of reinforcement; Rat 36, 23
- Confidence interval;** Confidence region; HIV; Disinfectant; Injecting drug use; Likelihood 36, 39
- Confidence region;** Confidence interval; HIV; Disinfectant; Injecting drug use; Likelihood 36, 39
- Configural frequency analysis;** Alcohol and drug abuse; Cross-system consistency; Diagnostic concordance; DSM-III; DSM-IV; ICD-10 36, 193
- Context-specific;** Analgesia; Associative; Morphine Naltrexone; Tolerance 36, 65

- Contingency management**; Methadone maintenance; Therapy attendance; Opioid abusers 36, 221
- Controlled trial**; Opioid; Detoxification; Buprenorphine; Clonidine 36, 115
- Cross-system consistency**; Alcohol and drug abuse; Configural frequency analysis; Diagnostic concordance; DSM-III; DSM-IV; ICD-10 36, 193
- Defects of axial skeleton**; Alcohol; Aspirin; Neural tube defects; Genetic susceptibility; Mouse fetuses 36, 175
- Delta-9-tetrahydrocannabinol (Δ^9 THC)**; Neonate; Marijuana; Ontogeny 36, 27
- Designer drugs**; MDMA; Substance abuse; Developmental toxicity; Drug discrimination 36, 161
- Detoxification**; Opioid; Buprenorphine; Clonidine; Controlled trial 36, 115
- Developmental toxicity**; MDMA; Designer drugs; Substance abuse; Drug discrimination 36, 161
- Diagnostic concordance**; Alcohol and drug abuse; Configural frequency analysis; Cross-system consistency; DSM-III; DSM-IV; ICD-10 36, 193
- Difficult temperament**; Risk factors; Substance abuse 36, 205
- Disinfectant**; Confidence interval; Confidence region; HIV; Injecting drug use; Likelihood 36, 39
- Dose-effect**; Meta-analysis; Morphine; Abuse liability; Postaddict humans 36, 147
- Drug discrimination**; Abuse liability; Rhesus monkey; Self-administration 36, 187
- Drug discrimination**; MDMA; Designer drugs; Substance abuse; Developmental toxicity 36, 161
- DSM-III**; Alcohol and drug abuse; Configural frequency analysis; Cross-system consistency; Diagnostic concordance; DSM-IV; ICD-10 36, 193
- DSM-IV**; Alcohol and drug abuse; Configural frequency analysis; Cross-system consistency; Diagnostic concordance; DSM-III; ICD-10 36, 193
- DSM-IV revision**; Substance dependence disorders; Tolerance and withdrawal; Alcohol dependence; Cocaine dependence; Opiate dependence 36, 15
- Emergency room**; Alcohol use; Case-control study; Home injuries; Falls; Violence; Traffic accidents 36, 1
- Ethanol**; Alcohol; Cocaine; Pharmacokinetic interactions; Pigs 36, 9
- Ethanol**; Gastric absorption; Albendazole; Mebendazole 36, 49
- Ethnicity**; HIV; Intravenous drug use; Cocaine; Methadone maintenance treatment 36, 109
- Falls**; Alcohol use; Emergency room; Case-control study; Home injuries; Violence; Traffic accidents 36, 1
- Fetal alcohol effects**; Fetal alcohol syndrome; Alcohol teratology; Longitudinal research; Learning problems; Partial least squares 36, 89
- Fetal alcohol syndrome**; Fetal alcohol effects; Alcohol teratology; Longitudinal research; Learning problems; Partial least squares 36, 89
- Fixed ratio**; Flupenthixol decanoate; Haloperidol decanoate; Neuroleptics; Cocaine self-administration; Progressive ratio; Schedules of reinforcement; Rat 36, 23
- Flupenthixol decanoate**; Haloperidol decanoate; Neuroleptics; Cocaine self-administration; Progressive ratio; Fixed ratio; Schedules of reinforcement; Rat 36, 23
- Gastric absorption**; Ethanol; Albendazole; Mebendazole 36, 49
- Gender**; Alcohol problems; Women; Survival techniques 36, 57
- Genetic susceptibility**; Alcohol; Aspirin; Neural tube defects; Mouse fetuses; Defects of axial skeleton 36, 175
- Haloperidol decanoate**; Flupenthixol decanoate; Neuroleptics; Cocaine self-administration; Progressive ratio; Fixed ratio; Schedules of reinforcement; Rat 36, 23
- Hepatotoxicity**; Anabolic steroid; Injecting drug users; Substance misuse complications; Needle and syringe exchange 36, 153
- History**; Nitrous oxide; Reinforcer; Subjective effects; Human 36, 227
- HIV**; AIDS; Sexual behavior; Injecting drug users 36, 33
- HIV**; Confidence interval; Confidence region; Disinfectant; Injecting drug use; Likelihood 36, 39
- HIV**; Intravenous drug use; Cocaine; Methadone maintenance treatment; Ethnicity 36, 109
- HMO, general population**; Alcohol; Primary care 36, 167
- Home injuries**; Alcohol use; Emergency room; Case-control study; Falls; Violence; Traffic accidents 36, 1
- Human**; Nitrous oxide; History; Reinforcer; Subjective effects 36, 227
- Human immunodeficiency virus**; Treatment entry; Injecting drug use; Substance abuse; Acquired immunodeficiency syndrome 36, 129
- Humans**; In-utero; Opiate exposure 36, 83
- ICD-10**; Alcohol and drug abuse; Configural frequency analysis; Cross-system consistency; Diagnostic concordance; DSM-III; DSM-IV 36, 193
- In-utero**; Opiate exposure; Humans 36, 83
- Infant**; Cocaine; Pregnancy; Child 36, 101

- Injecting drug use;** Confidence interval; Confidence region; HIV; Disinfectant; Likelihood 36, 39
- Injecting drug use;** Treatment entry; Substance abuse; Human immunodeficiency virus; Acquired immunodeficiency syndrome 36, 129
- Injecting drug users;** AIDS; HIV; Sexual behavior 36, 33
- Injecting drug users;** Anabolic steroid; Substance misuse complications; Hepatotoxicity; Needle and syringe exchange 36, 153
- Intravenous drug use;** HIV; Cocaine; Methadone maintenance treatment; Ethnicity 36, 109
- Learning problems;** Fetal alcohol effects; Fetal alcohol syndrome; Alcohol teratology; Longitudinal research; Partial least squares 36, 89
- Lefetamine;** Methadone detoxification; Clonidine; Buprenorphine 36, 139
- Likelihood;** Confidence interval; Confidence region; HIV; Disinfectant; Injecting drug use 36, 39
- Longitudinal research;** Fetal alcohol effects; Fetal alcohol syndrome; Alcohol teratology; Learning problems; Partial least squares 36, 89
- Marijuana;** Delta-9-tetrahydrocannabinol (Δ^9 THC); Neonate; Ontogeny 36, 27
- MDMA;** Designer drugs; Substance abuse; Developmental toxicity; Drug discrimination 36, 161
- Mebendazole;** Ethanol; Gastric absorption; Albendazole 36, 49
- Meta-analysis;** Morphine; Abuse liability; Dose-effect; Postaddict humans 36, 147
- Methadone detoxification;** Clonidine; Lefetamine; Buprenorphine 36, 139
- Methadone maintenance;** Therapy attendance; Contingency management; Opioid abusers 36, 221
- Methadone maintenance treatment;** HIV; Intravenous drug use; Cocaine; Ethnicity 36, 109
- Morphine;** Meta-analysis; Abuse liability; Dose-effect; Postaddict humans 36, 147
- Morphine Naltrexone;** Analgesia; Associative; Context-specific; Tolerance 36, 65
- Mouse fetuses;** Alcohol; Aspirin; Neural tube defects; Genetic susceptibility; Defects of axial skeleton 36, 175
- Needle and syringe exchange;** Anabolic steroid; Injecting drug users; Substance misuse complications; Hepatotoxicity 36, 153
- Neonate;** Delta-9-tetrahydrocannabinol (Δ^9 THC); Marijuana; Ontogeny 36, 27
- Neural tube defects;** Alcohol; Aspirin; Genetic susceptibility; Mouse fetuses; Defects of axial skeleton 36, 175
- Neuroleptics;** Flupenthixol decanoate; Haloperidol decanoate; Cocaine self-administration; Progressive ratio; Fixed ratio; Schedules of reinforcement; Rat 36, 23
- Nitrous oxide;** History; Reinforcer; Subjective effects; Human 36, 227
- Nurse;** Substance abuse; Availability; Survey; Specialty 36, 215
- Ontogeny;** Delta-9-tetrahydrocannabinol (Δ^9 THC); Neonate; Marijuana 36, 27
- Opiate dependence;** DSM-IV revision; Substance dependence disorders; Tolerance and withdrawal; Alcohol dependence; Cocaine dependence 36, 15
- Opiate exposure;** In-utero; Humans 36, 83
- Opioid;** Detoxification; Buprenorphine; Clonidine; Controlled trial 36, 115
- Opioid abusers;** Methadone maintenance; Therapy attendance; Contingency management 36, 221
- Partial least squares;** Fetal alcohol effects; Fetal alcohol syndrome; Alcohol teratology; Longitudinal research; Learning problems 36, 89
- Pharmacokinetic interactions;** Alcohol; Ethanol; Cocaine; Pigs 36, 9
- Pigs;** Alcohol; Ethanol; Cocaine; Pharmacokinetic interactions 36, 9
- Pituitary;** Amphetamine; Proopiomelanocortin mRNA; Rat 36, 123
- Postaddict humans;** Meta-analysis; Morphine; Abuse liability; Dose-effect 36, 147
- Pregnancy;** Cocaine; Infant; Child 36, 101
- Primary care;** Alcohol; HMO, general population 36, 167
- Progressive ratio;** Flupenthixol decanoate; Haloperidol decanoate; Neuroleptics; Cocaine self-administration; Fixed ratio; Schedules of reinforcement; Rat 36, 23
- Proopiomelanocortin mRNA;** Amphetamine; Pituitary; Rat 36, 123
- Rat;** Amphetamine; Proopiomelanocortin mRNA; Pituitary 36, 123
- Rat;** Flupenthixol decanoate; Haloperidol decanoate; Neuroleptics; Cocaine self-administration; Progressive ratio; Fixed ratio; Schedules of reinforcement 36, 23
- Reinforcer;** Nitrous oxide; History; Subjective effects; Human 36, 227
- Rhesus monkey;** Abuse liability; Self-administration; Drug discrimination 36, 187
- Risk factors;** Difficult temperament; Substance abuse 36, 205

Schedules of reinforcement; Flupenthixol decanoate; Haloperidol decanoate; Neuroleptics; Cocaine self-administration; Progressive ratio; Fixed ratio; Rat 36, 23

Self-administration; Abuse liability; Rhesus monkey; Drug discrimination 36, 187

Sexual behavior; AIDS; HIV; Injecting drug users 36, 33

Specialty; Substance abuse; Availability; Survey; Nurse 36, 215

Subjective effects; Nitrous oxide; History; Reinforcer; Human 36, 227

Substance abuse; Availability; Survey; Nurse; Specialty 36, 215

Substance abuse; Difficult temperament; Risk factors 36, 205

Substance abuse; MDMA; Designer drugs; Developmental toxicity; Drug discrimination 36, 161

Substance abuse; Treatment entry; Injecting drug use; Human immunodeficiency virus; Acquired immunodeficiency syndrome 36, 129

Substance dependence disorders; DSM-IV revision; Tolerance and withdrawal; Alcohol dependence; Cocaine dependence; Opiate dependence 36, 15

Substance misuse complications; Anabolic steroid; Injecting drug users; Hepatotoxicity; Needle and syringe exchange 36, 153

Survey; Substance abuse; Availability; Nurse; Specialty 36, 215

Survival techniques; Alcohol problems; Women; Gender 36, 57

Therapy attendance; Methadone maintenance; Contingency management; Opioid abusers 36, 221

Tolerance; Analgesia; Associative; Context-specific; Morphine Naltrexone 36, 65

Tolerance and withdrawal; DSM-IV revision; Substance dependence disorders; Alcohol dependence; Cocaine dependence; Opiate dependence 36, 15

Traffic accidents; Alcohol use; Emergency room; Case-control study; Home injuries; Falls; Violence 36, 1

Treatment entry; Injecting drug use; Substance abuse; Human immunodeficiency virus; Acquired immunodeficiency syndrome 36, 129

Violence; Alcohol use; Emergency room; Case-control study; Home injuries; Falls; Traffic accidents 36, 1

Women; Alcohol problems; Survival techniques; Gender 36, 57
